

STARTING A BUSINESS IS
A MAJOR STEP AND MANY PAY
LITTLE ATTENTION TO THE LEGAL
SIDE OF THEIR BUSINESS.

AT BLACKCITRUS WE DO NOT
BELIEVE IT IS JUSTIFIABLE TO CHARGE
ENTREPRENEURS PROHIBITIVE FEES
AND WE ARE AWARE THAT STARTUPS
CANNOT SPEND A LARGE PORTION
OF THEIR PROJECT BUDGET
RECEIVING LEGAL ADVICE.

Legal Services

We have arrangements with law firms around Sydney that offer a free first consultation with no hidden costs or commitment. Depending on the advice given and the project, our network of law firms have fees tailored for startup businesses with affordable payments and continual support.

At blackcitrus, we work with a team of lawyers, collectively representing several law firms to offer extremely low-cost packages exclusive for blackcitrus startups.

Does Your Business Really Need a Lawyer?

Lawyers help you make key foundational decisions about the organisation and structure of your business, which are imperative for your success. You will have many questions about starting a business that you hope will quickly become a large-scale enterprise.

At blackcitrus, we assist entrepreneurs in keeping their vision in mind. We prevent problems during the startup process and understand the legal worth to your business in the long term. Teams of experts ensure which business structure, contractual arrangements, intellectual property protection and risk management procedures are needed to bring out the best possible outcome for your business goals. It is a regretful thought that with the right advice, even if it is one aspect of a deal a few months down the road, entrepreneurs omit a contractual clause or unknowingly cause grief by being locked into a suboptimal business structure.

We Understand the Important Needs of Your Business

Having the right legal team behind you will put you in great stead to earn maximum profits by understanding the nature of your business, service and products. At blackcitrus we can guide and assist you and your business by looking at it and the industry in which it operates as a whole.

Our network of lawyers have owned or continue to own their own business and understand the key challenges faced by entrepreneurs.

Start up legal pack

Would you be interested in a legal pack that consists of all the agreements and policies a startup business requires? This is a low-cost alternative for drafting agreements. Some templates provided in the legal pack include:

- Workplace and Employment Agreements
- HR policies
- Service and Contractor Agreements
- Shareholders Agreements
- Non Disclosure Agreement
- Exclusivity Agreement
- Share Purchase Agreement
- Subscription Agreement
- Term Sheet and Letter of Intent
- Constitutional Documents
- Advisory Agreement
